Subject: Dimock CI Update

-A potential venue has been identified by the CIC as being an appropriate location for AP and CNN to film EPA's sampling activities and a specific date is still being coordinated.

-The CIC is preparing to be ready to meet with individual residents to go over their data packets in person during the weeks of Feb 20 and 27. That, of course, is subject to change.

-An internal team meeting is scheduled for 2/9 to discuss the implementation of the Communications Strategy for residential data.
